# LdM GALLERY

The LdM Gallery is a project by Istituto Lorenzo de' Medici, an interdisciplinary space where academic research and artistic experimentation meet within a professional setting.

In line with its mission of fostering opportunities for students to experience the reality of the art world beyond an institutional setting, the LdM Gallery strongly encourages the development of creativity and sophistication within the student body, giving students the opportunity to gain professional experience through their artwork while engaging in an open dialogue with the public.

**LdM Gallery Coordinator: Federico Gori,**

LdM Professor - Department of Painting, Drawing and Mixed Media.

**LdM Gallery Intern: Julia Lindemon,**

Marist-LdM Fine Arts B. A. student.

---

## BODY OF EVIDENCE DRAWING EXHIBITION

The LdM Gallery presents *Body of Evidence*, a student-oriented exhibition introducing figurative drawings that focus on the expression of the female form.

Presented to the public are the works of artists and current LdM students **Emma Hermans, Elise Hillbrand** and **Lovisa Rönngren**, created and developed during the LdM Advanced Drawing Course, in the short period from October to December 2018. With the use of gestural marks and abstract interpretations, the works of each artist interpret complex concepts of reflection and identity. Each artist uniquely approaches these notions, producing works that push boundaries within each composition to express the creative process through a personal and authentic style.

**Curated by Martin Figura,**

LdM Professor - Department of Painting, Drawing and Mixed Media.

The exhibition *Body of Evidence* will run from **Wednesday, December 5th to Wednesday, January 30th**. After the launch, the LdM Gallery will be open weekly from **Tuesday to Thursday, 5 PM - 8 PM**.

From **December 17th to January 30th** the LdM Gallery is open by appointment.  
For more information, please contact Istituto Lorenzo de' Medici at: **+39 055 287360**.

*Opening night will include a free aperitivo*
